MILK

Cleopatra had the right idea when it came to caring for her skin. Her ritual milk baths were rich in lipids, protein and nutrients to feed skin from the outside in. Now you can borrow some of this ancient wisdom by incorporating our Natural Milk Therapy accessories into your bathing ritual. Earth

Therapeutics has developed a patented technology that weaves wholesome milk protein - casein - into a soft, supple cloth. The lush fabric is extremely gentle, effectively cleansing and nourishing even super-sensitive skin. Our unique milk infusion will last three months with regular use.
